with your Diploma... our very Best Wishes!

Greetings,

Twenty years ago this month I graduated from Andrews High School. I knew before I walked across that stage that my life would change forever. As I look back on those last twenty years I see 'highs' and 'lows'. The one thing that keeps resurfacing in my mind is my drive to succeed. This drive is the motivation to do what is right and to never be satisfied.

Throughout your life after high school you will be faced with many challenges. Choosing the direction of those challenges to positively impact your life or to negatively impact your life is a choice you have to make. I hope that at each venture in your life you choose the choice that will provide benefits. As I looked back on the last twenty years of my life I am reminded of the reasons I made certain decisions and one of the most important decisions I made was to become a parent myself. I hope that if you choose to become a parent that you will take your role seriously.

After you walk across the stage on Friday I hope you will begin this new phase of your life with dreams and goals. As a human being you need to have dreams and goals that will challenge your mind and soul to exceed to new levels of your life. Please take the time to set goals and do not be afraid to set your goals with endless possibilities. I would like to leave you with the following as you prepare to graduation and enter the next phase of your life.

Believe in Yourself

Set your standards high
You deserve the best
Try for what you want
And never settle for less.

Believe in yourself
No matter what you choose.
Keep a winning attitude
And you can never lose.

Think about your destination
But don't worry if you stray
Because the most important thing
Is what you've learned along the way.

Take all that you've become
To be all that you can be.
Soar above the clouds
And let your dreams set you free.

Jillian K. Hunt
